

TNCHE Asia 2023 Conference
Energy COP
Presenter Bio data & Abstract

Name : Chee Aun
Company : EXERGY INTERNATIONAL Srl
Current Position : Regional Sales Manager

Working Experience : 23 years

Presentation Topic : Organic Rankin Cycle, Power generation from waste heat

Presentation Abstract [1-3 Lines] :

Onshore Oil & Gas Facilities have low enthalpy heat and hot water from the process that is not possible to be used by the steam turbine. These heat that is currently wasted can utilize an Organic Rankine Cycle system to be converted into electricity.
