

TNCHE Asia 2023 Conference
Energy COP
Presenter Bio data & Abstract

Name : Sharon Zhou

Company : KBC Advanced Technology Pte Ltd

Current Position : Regional Sales Director – Energy and Sustainability

Working Experience : 15 years

Presentation Topic : Using Digital Technologies for Effective Energy and Emission Management and Optimization

Presentation Abstract [1-3 Lines] :

Increasing focus on greenhouse gas emissions has put carbon reduction at the top of corporate agendas. Energy efficiency offers the most cost-effective means of carbon mitigation, and the scope for improvement in process industries remains large. Digitalization offers a means to deliver deeper, faster savings. This presentation discusses how best process plants can leverage various digital technologies available to seamlessly manage and optimize both the energy supply and demand and achieve complete and sustained energy efficiency and carbon reduction.
