Organization : Elliott Group, EBARA Corporation

Current Position : Director, Sustainability Business Development

Working Experience : 15 years

Title of Presentation : Decarbonization Solutions for Sustainability-Energy Efficiency and Turquoise Hydrogen

Presentation Abstract :

For the enormous challenge against global climate change, decarbonization is the immediate key opportunity to create and sustain a better world for future generations. The impact of rapid climate change can be mitigated by developing and implementing the best solutions for energy efficiency, carbon neutrality, and renewable energy initiatives such as energy saving, hydrogen, CCUS, and ammonia. At Elliott Group Ebara Corporation, our Sustainability mission is to achieve these goals, supported by establishing effective collaboration and partnerships between key stakeholders in the industry.
