## About Event

The 3<sup>rd</sup> Thailand International Chemical Engineering & Chemical Technology (TNChE Asia 2024) is organized by The Thai Institute of Chemical Engineering and Applied Chemistry (TIChE). TNChE Asia 2024 will feature Topical Conferences, Community of Practice (COP) Sharing, Technology Exhibition and Engineering Intensive Training which will be scheduled for 19<sup>th</sup> – 21<sup>st</sup> June 2024, at Pattaya, Chonburi Province, Thailand.

The highlight of TNChE Asia 2024 will be the **“Decarbonization, AI and Digital Transformation for Sustainability in Process Industries”** conference. The conference aims to disseminate and promote Decarbonization Technology, research, development and innovation as well as technological collaboration between / among chemical industry, technology providers, researchers and industrial participants from Thai and International entities.

## Event Highlights

### Topical Conferences

The highlight conference **“Decarbonization, AI and Digital Transformation for Sustainability in Process Industries”**

### Community of Practice Sharing

Community of Practice Sharing will feature on

- Chemical Process Safety Sharing #13
- Digital Technology for Smart Industry #5
- Process Scale-up Sharing#3
- Energy Saving and Optimization COP Sharing #5

### Technology Exhibitions

TNChE Asia 2024 – is the perfect platform to bring the technology and innovations, showcasing:

- Process Technology
- Process Equipment
- Process Automation
- Digital Technology

### Engineering Intensive Training

Engineering intensive training for chemical engineering and process safety engineering

### Executive Networking Dinner

TNChE Asia 2024- is the perfect executive networking & collaboration opportunity for Exhibitor/ Event Partner to meet the Executive from Leading Industrial Companies

# TNChE Asia 2024

## Why Exhibit

### GROW YOUR BUSINESS

TNChE will be a gathering of business leaders, investors, engineers, high-level government representatives and academic members hence offer an excellent opportunity for exhibitors and sponsors to grow their business network.

### GAIN MAXIMUM BRAND EXPOSURE

Sponsors' and exhibitors' brand and product will be listed on both online and on-site, thus allow them to gain maximum brand exposure.

### REACH YOUR TARGET AUDIENCE

A large number of TNChE's participants are top executives, decision makers or purchasing influencers. Sponsors and exhibitors can be sure to achieve real business opportunities.

## Testimonial

"This event allows us to see trends in technology that we need to prioritize in the future. Additionally, we've had the opportunity to connect with colleagues in the field of chemical engineering, which has been inspiring for our work. We've also delved into the topic of decarbonization to promote the society's vision.

**Assoc. Prof. Chaiwat Prapainainar, Ph.D., KMUTNB**

---

"This event has exposed us to innovations in various forms, with a strong emphasis on sustainability, which is considered a new paradigm of innovation that we should closely follow and prioritize. Furthermore, the event has gathered many leading chemical companies."

**Bureau Veritas**

"I feel both enjoyment and satisfaction attending this event because it's an opportunity for us to learn about new technologies. Additionally, it has provided us with networking opportunities and a chance to catch up with acquaintances in the engineering field."

**Siricharn Jirapongphan, SCGC**

## Testimonial

“The exhibition is very well organised, with lots of chemical, oil and gas industries. People here are willing to learn about technology, especially sustainability and decarbonization, and we can also present our products in the market. Next year, I will definitely be back.”

**Elliott Group**

---

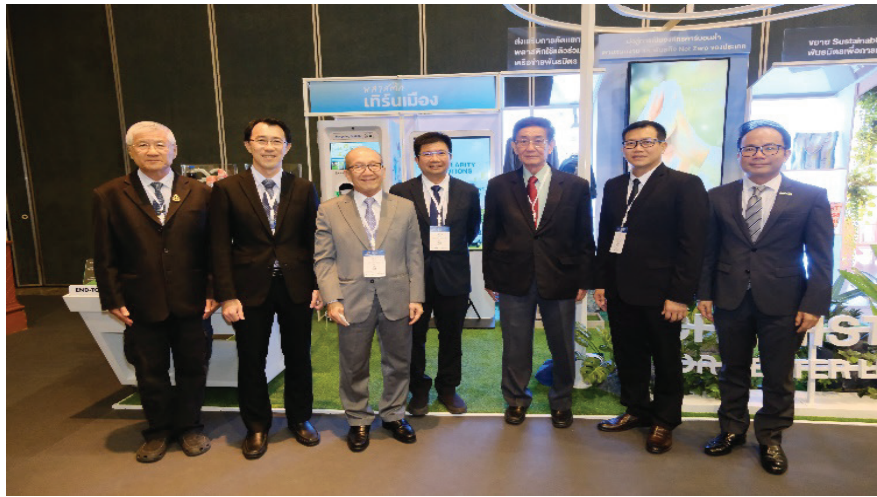

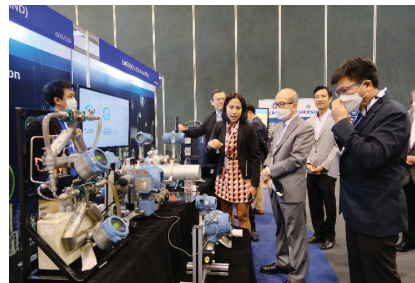

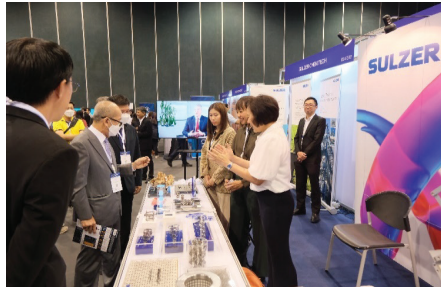

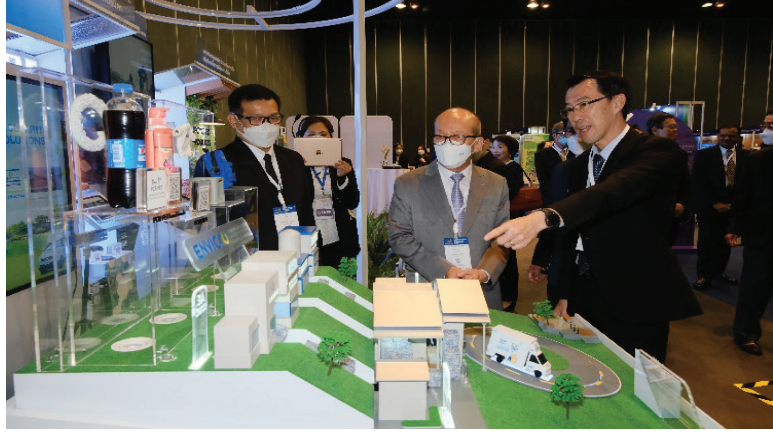

“This year's TNChE event has shown significant growth compared to the previous year, especially with companies like SISTAM. We, who directly oversee process safety, can say that it aligns quite well with our target audience. You can see that the booths and various partnering companies have prepared extensively, underscoring the real significance of this event.”

**Nuchada Paradevisut, SISTAM**
