

**TNCHE Asia 2024 Conference**  
**" Decarbonization, AI and Digital Transformation**  
**for Sustainability in Process Industries "**  
**Presenter's Biodata & Abstract**

**Full Name** : [Nadim Barakat](#)

**Company/ Organization** : [C3.ai](#)

**Current Position** : [Senior Director Strategic Solutions](#)

**Title of Presentation** : [Turning AI Into Knowledge: A Practitioner's Guide](#)

**Presentation Abstract :**

Join directors from C3 AI, a leading Enterprise AI software provider, as they share insights into how digital transformation programs, across their customers in the Chemical industry, have impacted sustainability, innovation, and performance across their operations. In this session, solution providers to leading companies around the world, driving tangible results with technology, will share their valuable firsthand experience: how these Customers are using AI and Generative AI to refine their company's predictive maintenance & yield optimization processes, addressing resources management, and monitoring and reducing emissions.
